

Red, Ensemble, Data, Cross

listens, Dasharatha remembers, Sugriva knew

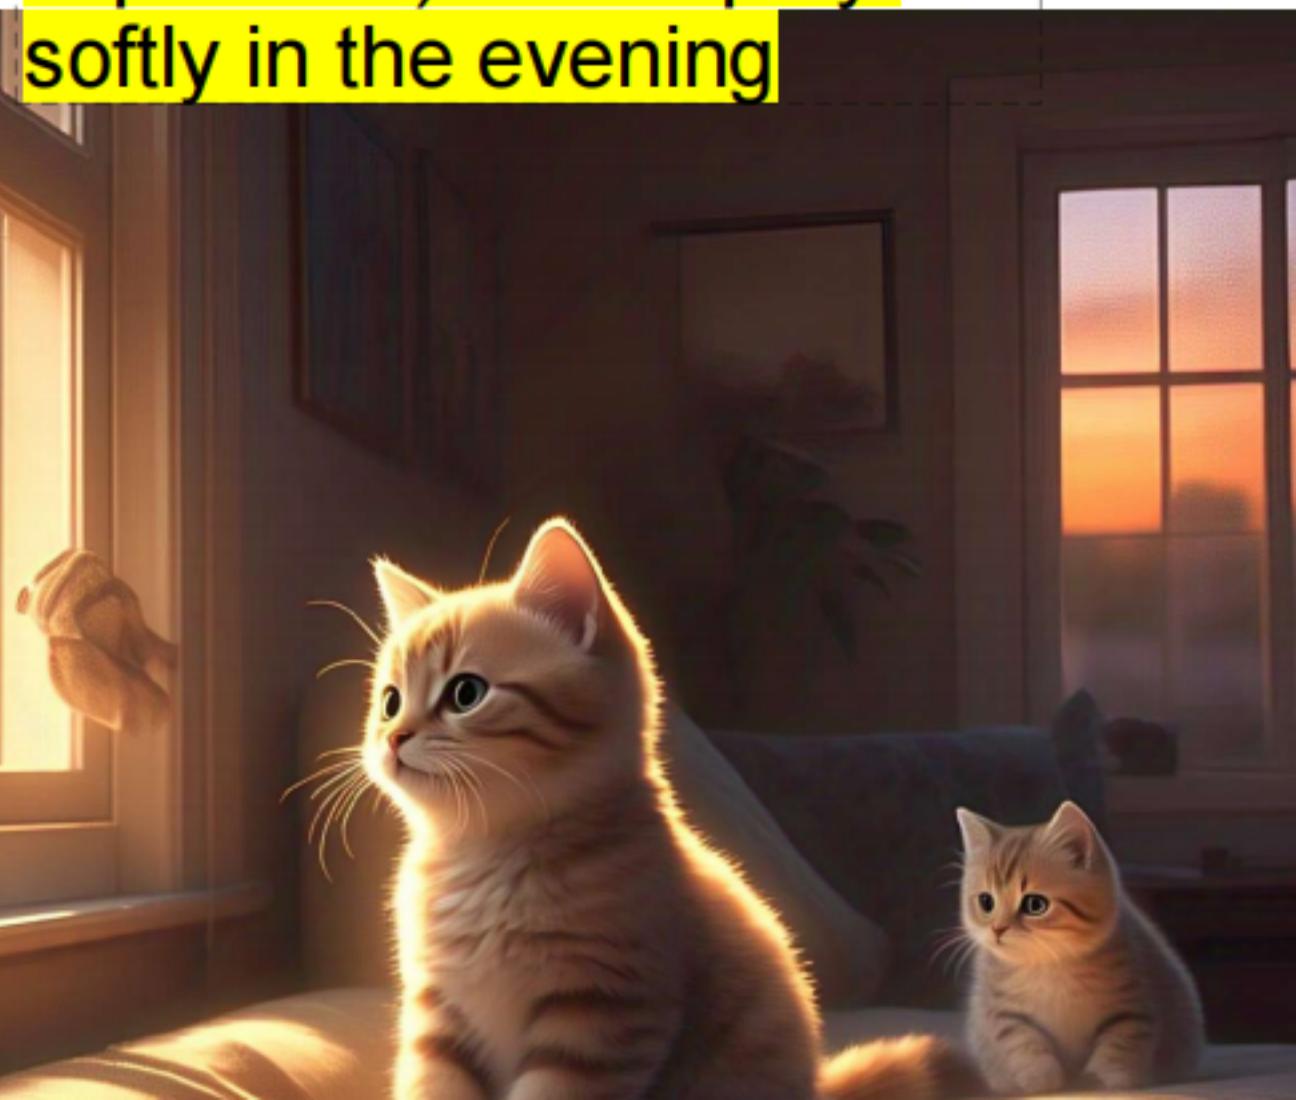

occam's ragor principle--
(application in ML:::::old
grand father cooks maggi)

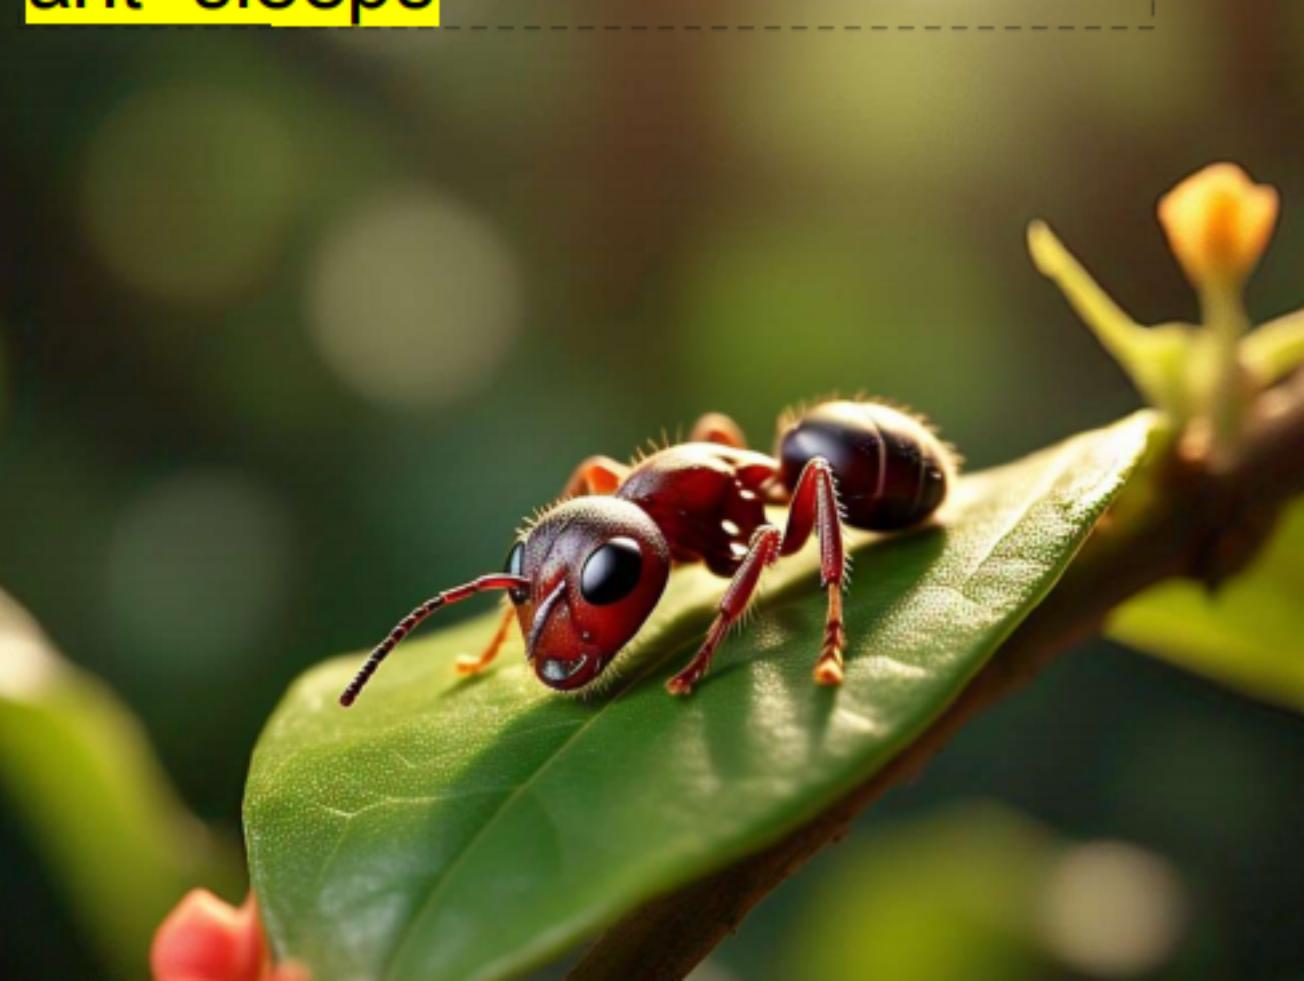

occam's rago--(techniques
)::::red monkeys find eggs

linear regression with least squares---(steps to implement)::::cats play softly in the evening

computational learning theory
----(key components)::::lazy
ant sleeps

computational learning---

(importance of clt in ml:::

unique elephants gallop in
africa.

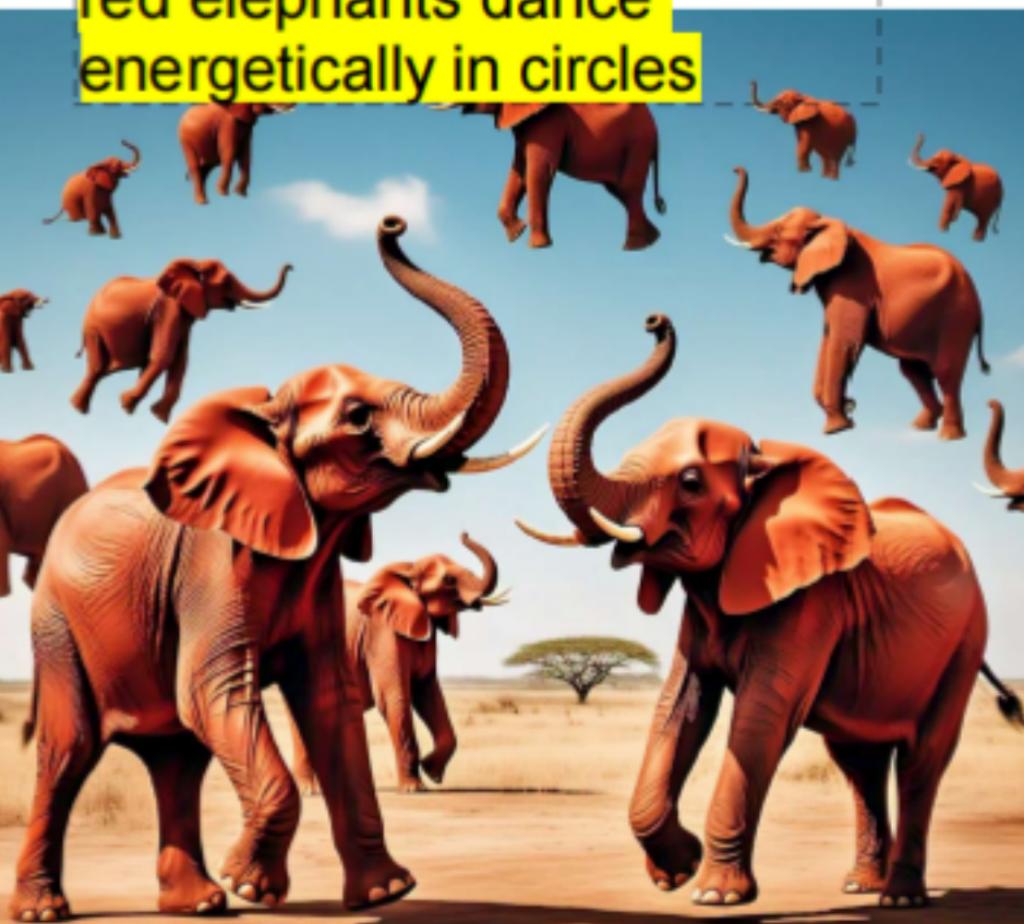

generalization error---
(factors effecting GE)---
monkeys train near
mountains

generalization error---(estimation
):::::hungry kangaroos bounce
madly

generalization error--
(techniques to reduce GE) ...
red elephants dance
energetically in circles

metrics for regression and classification---(regression metrics)::::many mad rabbits run miles

metrics for regression and classification---(classification metrics):::all pretty rabbits feel awesome always

metrics for regression and classification---(cmp of regression and classification metrics):::: funny squirrels stay thoughtfull

junny
